

Heated pressure regulator / vaporizer Electric or with steam

HPR-2-steam

pressure reducing regulator, SS 316L
single stage with steam heated heat exchanger
For heated or vaporizing of gas streams
inlet pressure: max 410 bar
outlet control range: 0-0,7 bar to 0-35 bar
flow coefficient: Cv 0,06 or 0,2
operating temperature: -40°C to 260°C

HPR-2-electric

pressure reducing regulator, SS 316L
single stage with electric heated heat exchanger
For heating or vaporizing of gas streams
Voltage: 110V or 230V 50/60Hz
in diff. power classes, optional ex-proofed
inlet pressure: max 410 bar
outlet control range: 0-0,7 bar to 0-35 bar
flow coefficient: Cv 0,06 or 0,2
operating temperature: -40°C to 260°C
