

S-LINE is suggested for 1" and smaller steam, condensate, liquid and gas transport lines where personnel protection and heat loss are important. S-LINE offers an inexpensive alternative to field insulation and weatherproofing of small diameter lines.

- ▶ **Save time and labor when installing lines 1" and smaller**
- ▶ **Reduce fittings with long coils**
- ▶ **Eliminate leak paths from screwed and compression fittings associated with stick tubing**
- ▶ **Easy installation**
